

Agave Syrup

Definitions

PRIVATE & CONFIDENTIAL

PhytoTeq™
Photosynthesis
brought to you
by *Science*.

Certifications *and Standards*

Our syrup is produced in a method that is in conformance with the following applicable legal and regulatory requirements, governed by the standards:

Relating to the characteristics of health, food quality, authenticity, labeling and conformity assessment of agave syrup.

As PhytoTeq™ Syrups are not yet commercially available, while internal as well as 3rd party audit confirm process conformity, commercial validations of the above standards have not yet been complete.

Ingredient *Performance*

Suggested Use

Agave syrup can be used as an ingredient, raw material or as a direct sweetener, even when it is declared with a low glycemic index due to its high fructose content, consumer tolerance to this product should be consulted with a nutrition expert.

The agave syrup can also be used for baking or cooking at high temperatures up to 350 °C, while maintaining its pH close to neutral for long periods without changing its safe condition. It is considered a safe food for patients with diabetes, and there are no references of lethal doses or degree of toxicity.

Storage Conditions

It is recommended to store in a dry and cool place at a temperature below 35 °C without structural damage to the container, preferably out of direct contact with sunlight.

Safety

This is a non-toxic product, its moderate consumption is recommended as well as that of any other commercial sweetener, even with its low glycemic index, the consumer must determines how appropriate this product is for self-consumption.

Attributes as Raw Material

- » Sweet taste
- » Easily dissolves in water
- » High purity
- » Provides texture
- » Gluten-free
- » Easy storage

Industrial Applications

- » Prepared beverages
- » (juices, soft drinks, cocktails, etc.)
- » Pharmaceuticals
- » Sports Drinks
- » Bakery and pastry
- » Confectionary
- » Energy bars
- » Dairy products
- » Sauces and dressings
